

**This book is dedicated to all the Constitutional Conservatives and Patriots who openly stood up to try to defend Article II, Section 1, Clause 5 of our U.S. Constitution, the Presidential Eligibility Clause, from the usurpation of the office of President and Commander in Chief by Barack Hussein Obama II. I pray that our country in the future will continue to be a place where one can still fully enjoy life, liberty, and the pursuit of happiness as envisioned by the Declaration of Independence, and the contract put in place by our country's Founders and Framers to protect our unalienable rights granted to us by our Creator and to fulfill that vision, the U.S. Constitution.**
